Till vår klient på Accurate Consulting söker vi nu efter en senior UI designer med UX erfarnhet

About The Job

Our clients next UI Designer will join a dedicated in-house Growth team, composed of UX Designers, SEO Specialist and Web Analysts. Together, we are responsible for continuous growth and enhancing the user experience for our online products. This is a space where you work like Champions, Challenge old ways, act like Buddies in everything we do so that we may provide our customers with the best experience.

About The Role

Your focus will primarily be on our Online products comprising our website and app. Our team is designing responsive web- and mobile. We work in a data-driven environment and communicate a user-centered way of working throughout the organization to achieve a seamless user experience for our customers.

Your role will involve quickly understanding the business's requirements and objectives, translating behavior insights from user research (based on qualitative and quantitative data) into data-driven design solutions that deliver value to the business, followed up, and measured through identified KPIs.

We are proud of our hands-on work, using methods such as user journey mapping, persona building, wireframes, functional specifications, and prototypes. Our concept validation is through prototyping and testing. We work in cross-functional teams, where you are surrounded by team players who together exchange ideas and challenge each other to think

Accurate Consulting Sweden AB

from new perspectives. You will also collaborate with other designers to ensure a holistic user experience. You have an eye for details, like working in a structured way with UI and visual design. We have recently begun our journey to streamline and develop our design system and pattern library in Figma, which you will be an important part of.

Who You Are

This designer role is quite special in our team, among aforementioned skills required of a UX designer, you are indeed a highly effective ninja when it comes to UI graphics and visual architecture as well. That means that you are able to maintain a holistic view, working proactively to make sure that visual concepts are optimized, UI architectures are kept solid and improved incrementally, while being our anchor to other parts of the organization who work with creative endeavors, one such being our marketing department.

To be successful as a UI Designer, we see that you have several years of experience as a UI Designer, UX Designer, Product Designer, or similar. Communication is a key at our company, and this is where the responsibility falls to you to make sure as a designer that your voice is heard and that you hear the people around you. You thrive in a role where you are conducting and participating in workshops, presenting your designs and asking for feedback. Furthermore, you speak English fluently.

Notes:

Personen skall vara UX men också UI med grafisk erfarenhet och gärna vara kunnig och bekväm med vektoriserade verktyg.

Personen skall vara "senior" med ca 2-5 års erfarenhet

Att vara bekväm/van med att kommunicera med frontend-utvecklarna är meriterande.

Vi söker en UI:are med erfarenhet av UX. Dennes team kommer att styra upp hemsidan som består av 3 delar. Huvudsidan, webshopen. samt en portal. Personen kommer att jobba med att styra upp det grafiska och förfina. Personen kommer att ha mycket kontakt med Redaktionen (de som skriver texterna), Frontend-utvecklarna och framförallt UX.arna

Välkommen att höra av dig med frågor om tjänsten till:

- **Kash Taimoori, Mobil: +46 76 199 88 49**
- **Per-Ola Björk, Mobil: +46 70 829 76 63**
- **Ansökan skickas till: per-ola.bjork@accurateconsulting.se**

Med vänlig hälsning
